

Background For Modern Science Found in China

Early Observations Made of Stars And Earth Motions

ALGEBRA STUDIED

Utilized Fisheries, Silks, Plateglass, Seismograph, Machinery And Medicine

An interesting address on "Chinese Contributions to Science" was delivered last evening by Dr. Kiang Kiang-hu, Professor of the Department of Chinese Studies.

"Although very weak in natural science," stated Dr. Kiang, "the Chinese have given three most important inventions to the modern world. They have always been strong in art, literature, and social science; and before the inventions of steam and electricity, their country held an important position in the world."

Before the Chin Dynasty, many scientific works had been written on astronomy. A method of calculating the eclipse and seasons, and of ascertaining the months in a lunar calendar was then known. In the Confucian Classic, "Ta Tai Li," Tsung Sheng declared the earth to be round. In the "Book of History," compiled 1500 years before the Copernican Theory was evolved, the earth is spoken of as making a daily revolution in accordance with the stars.

Economic Conditions Studied

Agriculture, forestry, silk-culture and fishing were equally well known. In the realm of mathematics, Algebra was studied, in which branch, the unknown quantity was depicted by T'ien Yuan, or "heavenly figure."

The compass was the earliest invention, known in the time of Huang Ti, the "Yellow Emperor," about 2600 B.C. There is a story, continued the speaker, of Huang Ti using the compass during a conflict with Chu Yu, at which time a dense fog had settled. Another story tells of a chief of Annam, in the 11th Century B.C. employing the compass to enable

Orchestra to Play Dvorak's Symphony

Classic and Modern Numbers Included in Program

Tomorrow's concert by the Montreal Orchestra will include a repitition of the Symphony from the New World by Dvorak, and will be held at the usual hour, 8 o'clock, in the Hils Ma Jesty's Theatre. Three other numbers are included in the program, with both classic and modern selections.

Announcements have been made that the Canadian Pacific Railway are planning to broadcast a number of concerts by the Orchestra. These will be heard during their radio hour from 5:30 to 6:30, on Saturday afternoons, and on all probability start on the 21st of this month. A series of programs are being arranged that will include modern composers as well as the classicists.

The program for the concert tomorrow is: Choral Prelude—Cantata No. 81—Bach, Symphony No. 5 in E Minor, Op. 95 from the New World—Dvorak; 1. Adagio; Allegro Molto. 2. Largo. 3. Scherzo (Molto Vivace). 4. Allegro con fuoco. Siegfried Idyll—Wagner. Suite—Scenes Alsaciennes—Massenet. 1. Dimanche Matin. 2. Au Cabaret. 3. Sous les lilas. 4. Dimanche Soir.

Englishmen Mistake Canadians for Yanks

McGill Is Thought To Be "The" Canadian University

Toronto, February 7, 1931. (By Exchange.)—Englishmen consider McGill to be the only university in Canada, as there are no other college representatives in England, according to Professor E. A. Havelock. Moreover, these few choice students are mistaken for Americans most of the time. Fortunately, they meet with better treatment than their United States neighbors, due to the fact that "the Canadian slips quickly into English ways."

Personally, Professor Havelock never met any Canadian students, as there are only Americans at Cambridge. Most Canadians go to Oxford through the Rhodes scholarships, while scholars generally take Americans to Cambridge University, he explained.

ISABEL

MARY BINMORE, who takes the part of Isabel in the Operatic and Choral Society's forthcoming production "Pirates of Penzance."

Applied Science To Change Name

Confusion Is Stated To Be Cause of Change

BOARD WILL DECIDE

Degrees of Bachelor And Master of Engineering Proposed as Solution

A motion to change the name of the Faculty of Applied Science to the Faculty of Engineering will be the main business of the meeting of the Corporation to be held next Wednesday at the University. The reason for this is found in the growth of confusion between students of Applied Science, and those studying pure science in the Faculty of Arts and Science. During the last few years, there has been a steady growth of enrollment in the latter faculty.

B. Eng. Is New Degree

The fact that particularly emphasizes this condition is the similarity of degrees that these faculties grant, both being Bachelor of Science, though in one case it is B. Sc. in Arts and

(Continued on Page Two)

Famous Doctor To Be Guest at Medical Dinner

Morris Fishbein Will Discuss "Fads And Quackery In Medicine"

NOTED HUMORIST

Students Urged to Reserve Tickets as Early as Possible

To-night is the night in the Faculty of Medicine. The Queen's Hotel will be the scene of the Annual Dinner, the forty-ninth of its kind, in the history of the Faculty.

The Dinner signals the opportunity of the Graduating Class of 1931 to celebrate together for the last time. Members of the junior years will be largely in attendance as well. The presence of Dr. Morris Fishbein as Guest of Honour has caused much interest in the Medical School and many students as well as members of the teaching staff are anticipating with great pleasure his speech on "Fads and Quackery in Medicine," a subject certain to be of tremendous interest to every man in the School.

Completely Informed

As Editor of the Journal of the American Medical Association, Dr. Fishbein has had the enviable opportunity of delving into the most complete and authoritative sources of information on the continent. The Journal has long waged hand to hand battles with charlatans and quacks parasitic upon the practice of Medicine as well as upon patent and "cure-all" medicines.

Dr. Fishbein's many well known books upon these matters have long stood out as fearless exemplars in the crusade against the deception of the public by unscrupulous individuals.

Large Attendance

The Committee has announced that seats will be obtainable at the door of the Spanish Room at the time of the Dinner. Students of Medicine are urged, however, to purchase tickets from class representatives before seven o'clock this evening as the capacity of the Hall threatens to be taxed

McGill Lecturer Receives Honor From Architects

MR. Philip J. Turner, special lecturer on building construction in the School of Architecture, was elected second Vice-President of the Province of Quebec Association of Architects at their annual meeting. He has just completed a term of five years as Honorary Treasurer, and is also chairman of the Board of Examiners.

Mr. Turner is a practicing architect, having an office downtown, where he has designed many notable structures. He has lately finished a church in Westmount that has received favorable comment from his fellow professionals, while he is best known to students through his many lectures on the various aspects of architecture before the clubs to which students have access.

Cinderella to Be Presented Again

Third Performance Necessitated by Popular Demand

IS CHILDREN'S PLAY

One of Series Sponsored by English And Extra-Mural Departments

"Cinderella" will be presented for the third time in Moyse Hall today at 3:30 p.m. The play is one of a series of children's performances which are being put on under the joint auspices of the Department of Extra Mural-Relations and the English Department, and is under the direction of Miss Marguerite Strathy.

The play is a dramatization of the well known Mother Goose Tale of the same name. These stories were written about three hundred years ago by Charles Perrault, and were later translated into English. All parts are taken by students of the University, and the play will be produced exactly as it was at the Children's Theatre, London.

Played Last Saturday

Last Saturday the play was put on before a capacity crowd of children, and was very well received. Excitement ran high as the play gradually unfolded. The scene where the Fairy Godmother prepares Cinderella for the ball was very effective. When she arrives there, she is able to catch the interest of the young prince. As the hands of the clock approach the hour of midnight, the suspense mounts and she is forced to go, leaving her slipper behind her.

She is, of course, discovered when the glass slipper is found to fit her, and the story ends with a wedding procession.

All tickets for today's performance have been sold but in reply to popular demand, a fourth and final performance will be given on Saturday, February 21. Tickets for this performance may be obtained at the Comptroller's Office from 9 until 4 o'clock daily.

"Saint Joan" Topic Of Forum Lecture

Reverend Lawrence Clare to Discuss Famous Shaw Drama

The Reverend Lawrence Clare, pastor of the Church of the Messiah, will be the speaker at the next meeting of the Peoples Forum to be held tomorrow evening at 7:30 p.m. The subject of the address will be a discussion of George Bernard Shaw's famous play "Saint Joan," which will certainly be of absorbing interest to any real lover of English Literature. The Reverend Mr. Clare is very well known to Montrealers, and since coming to Montreal three years ago he has won the affection and admiration of thousands of Canadians everywhere. Even those who have no association with his church or indeed with the religious philosophy of the Unitarians have come to know him as a scholar and as a minister of Christ.

With a mind that is alert and critically penetrating he combines alert impressive and subtle appreciation of the mystical aspects of life. He reveals the mind in English that is delightfully simple, vibrant and concise. On this occasion Mr. Clare will appear in the role of Lecture-ecclatist.

George Bernard Shaw himself in speaking of the fine arts, has said "I am convinced that fine art is the subject, the most seductive, the most effective means of moral propaganda."

Experts Judge Revue Posters Monday in Union

Contributions are at Present Exhibited in Union Lounge Room

CASTING COMPLETE

Work in All Departments Is Progressing With Great Speed

An official announcement was made late yesterday afternoon by the Red and White Revue executive to the effect that the poster judging would take place in the Union Lounge Room on Monday. The appointed critics are H. R. Coffield, of Coffield and Brown, advertising experts, Charles Davis, of Norris-Paterson, and Major Stuart Forbes. The posters will be placed on display sometime today and will be up for exhibition throughout the entire next week.

Some fifty posters in all have been contributed, a larger number than last year, with varying designs and color-schemes. A recent statement by a member of the committee alleged that the work and interest shown in the competition was tremendous. The judges will pick the best three, to which prizes will be allotted.

Tryouts Successful

Final tryouts for acting, singing and dancing parts in this year's show were held yesterday afternoon in the Union with a considerable array of potential material on hand. Several tap-dancers and singers demonstrated their wares to the tune of some of the popular numbers and the executive were well-pleased with the results. Producer Ross stated that casting is now practically complete and the various actors will be allotted their parts next week.

A considerable number of skits and musical numbers will be included in the general theme that pervades the entire production. The musical chores (Continued on Page Four)

Y.M.C.A. Forum Hear W. Goforth

"Economic Nationalism" Will Be Topic of Discussion

The speaker at the Y.M.C.A. Forum on Sunday afternoon February 8th, will be W. Wallace Goforth, M.A. who will speak on the topic, "Economic Nationalism." This meeting will be the fourth of the general series entitled, "The Christian Ethic and Unemployment," being a study of the present social crisis, its causes and its cures from the Christian point of view.

Mr. Goforth graduated from Toronto University, after which he did post-graduate work at McGill, and was on the staff of the Department of Economics. He is now head of the research Department of Cockfield Brown and Co., Limited.

Mr. Goforth has proved to be most acceptable speaker before many organizations in various parts of Canada. At the meeting on Sunday afternoon he will deal with the general subject of tariffs and their relationship to unemployment.

Order May Endow Greek Chair Here

\$700 Prize For Essay Also Announced

Within the next two months, \$100,000 will be donated by the Delphic order of G. A. P. A. towards the endowment of a chair for the teaching of modern Greek in either McGill University or the University of Montreal, Captain George Demetris, Grand governor of the New England States announced at the first annual supper and dance of the Diogenes lodge No. 1, Montreal Branch of the Delphic Order of G. A. P. A. at the Windsor Hotel Thursday.

So interested is the order in acquainting the general public with the aims and ideals of the Grecian people in Canada, that they are offering a prize of \$700 for the best essay by a student of McGill or U. of M. on Grecian mythology.

Students' Council Give \$1100 Budget To Players' Club

Last Night's Meeting Also Grants \$100 to Band For Instruction

AGENDA IS LARGE

Establishment of Canadian Intercollegiate Press Union Assured

In a long, four-hour session last night the Students' Executive Council ran through twenty-two items of business to dispose of the most crowded agenda of the year. Of greatest importance, perhaps, was a letter from the President of the McGill Women Students' Society suggesting certain very definite constitutional rearrangements with regard to the forms of undergraduate self-government. Suggestions for closer co-operation with the University were submitted and the more immediate measures adopted.

Smaller items of business included a survey of the general policy of the Daily, the passing of an eleven-hundred-dollar budget for the Players' Club's "Beggars on Horseback," and the appropriation of \$100 to be spent in professional instruction for the band. The Council also set February 25th at 12 noon, as nomination deadline for the various student offices which are filled by election at this time of year. Voting date was set for March 11th. The Daily was granted plant of a down-town newspaper, and an additional \$20 for the establishing at once of a Canadian Intercollegiate Press Union. It was decided to sponsor an open meeting at the end of next week when Dr. Kotschnig, a distinguished visitor will speak to a student audience in the Union. Other smaller matters occupied the rest of the time.

Guarantee Annual For April First

Will Contain Informal Pictures of Campus Life MANY INNOVATIONS

Contains Illustration of First Intercollegiate Football Game in America

"April 1st will see the McGill Annual on the Campus this year," stated George Nicholls definitely when interviewed late yesterday afternoon. Many innovations in arrangement and pages dealing with Campus Life will be included in this book, which is undergoing changes, that will make it more readable and entertaining. George Nicholls, during the interview, became very communicative and divulged several interesting secrets concerning the publication.

The general impression that the volume is going to be very modernistic is wrong as it is to be designed only along severer lines than usual. The cover will be black, with a block design, and it should adorn almost any bookshelf. The frontispiece is smart and plain with a crest and printing only, in a combination of the colours red, white and black.

There will be changes in the arrangement of the women's section and of the clubs and societies, which will place them in a proper order. Things pertaining to the women will be under the head "Women" and will then be subdivided into sections entitled "R.V.C." and "M.S.P.E." respectively. The clubs and societies will be grouped so that those sponsored by the Students' Council will be apart from those which are independent. Excellent pictures of Campus celebrities (Continued on Page Four)

Committee Presents Report on Relations

Social Sports and Newspaper Aspects of Situation Studied

The committee appointed to study methods of strengthening relations between McGill and the University of Montreal, submitted a report yesterday to the Student's Council. Their findings were presented under the following heads: It is suggested by the committee that in order to further social relations between the two Universities, an intercollegiate Ball be held, which would take the place of the Alma Mater, and that in view of the fact that the University of Montreal contemplates presenting a revue, McGill assistance and support should be forthcoming.

Moreover the student reduction which is offered at present to McGill men by clubs and societies on the campus might be extended to include the students in the sister university. McGill organizations which approximate those of the University of Montreal should be induced to cooperate with one another. In the field of sports closer relationships could be achieved by the McGill Athletic Office, and if the Union privileges were extended to the French students this alone would do much to bring the two universities together, especially if the contemplated joint smoker and reception should take place.

Last and most important of all is the exchange of publicity and news-items between the Daily and the University of Montreal student publication "Le Quartier Latin," which has agreed to revise its policy somewhat in order to conform with that of the Daily. This is being reciprocated by the McGill Paper which intends to run a special series of articles on events in the University of Montreal.

Rusty Davis Will Play For Plumbers

Scene Will Be Laid at Mount Royal Hotel

Only ten more days and the Plumbers Ball will once more be the event of the moment. This dance has always been observed as perhaps the most outstanding of all college dances, and this year it promises to be an even greater success than ever before. Rusty Davis is to supply the music, the supper is to be specially appetizing, and the scene of the dance is to be the ballroom of the Mount Royal Hotel and the date, Feb. 17.

The committee have every confidence in the success of the dance and those wishing to procure tickets had better be prompt in obtaining them for unfortunately all cannot attend, the number of dancers of necessity being limited to three hundred. Science Graduates are expected and according to custom, tickets are being held for them in reservation.

There need be no complaint of the snappiness of the orchestra, for it is to be led by Rusty Davis and he is to be there himself to keep his men up to scratch during the evening. He is putting himself out to select good numbers and there is no doubt that he will put them over with his usual success.

Details as to the events of the evening have not yet come to light, but the Engineers seem to have been fired by special originality if conclusions may be drawn from the rumours which have been heard from time to time for the last few weeks. Six dollars will buy a ticket to the dance and those wishing to procure one should do so without loss of time for by the middle of next week it is most probable that all will be sold, and many will find themselves disappointed.

SENIOR BASKETEERS WIN WHILE SECONDS DEFEATED

Intercollegiate Cagers Defeat Beavers 38-29 in Exhibition Tilt

FAULKNER STARS

THE Montreal High gym was filled to capacity last night when Coach F. M. Van Wagner's intercollegiate basketball quintet turned back the snappy Beaver outfit by the score 38-29 in a fast open game. Although Captain Small was absent from the red line-up, the McGills easily held the edge throughout the proceedings.

The Beaver aggregation, the shortest and youngest team in the Senior City League did far better than expected, and in point of view of the spectators for the tilt was quite a pleasant and exciting affair. Scoring was frequent and play was kept at full speed throughout the tussle.

Faulkner was again high scorer for the redmen with 16 points to his credit. Right from the outset he was shooting them in from all angles and at the end of the first session he had garnered 5 field goals for a total of ten points. Play was fast and clean in the first frame and the redmen had an easy task running up a 9 point lead, the half-time score being 19-10.

In the second session the young Beavers started a little scoring of their own, with Glodman the potent force on the forward line. The red defence was found napping more than once and the maroon sextet took advantage of all opportunities. McLean was used for the most part of the second frame and his ability at shooting.

Juniors Try To Catch Leaders

J.A.H.A. Team Favored to Beat Columbus Today

FACE HEAVY PROGRAM

Junior Hockey

All juniors are to be at the Forum for 2 o'clock this afternoon, as the picture for the annual will be taken.

MCGILL junior hockeyists start their last lap, in the J. A. H. A. when they meet the lowly Columbus this afternoon at the Forum. Loyola entertain Victorias in the second game. The redmen have four games to play in the next four weeks, and if the McGill team wins these games they will finish in first place. The red team are now in third place, three points behind first place M. A. A. A. and two points behind the second place Canadiens, but have played two games less.

The redmen will be heavy favorites to beat the green-clad players, who are in the cellar. A win will put the McGill team in a tie for second place with Canadiens and one point behind M. A. A. A. who remain idle today. Until recently the Canadiens were not figured as contenders in the league but they are firmly lodged in second place one point behind the leaders.

The last time McGill met the Columbus team they had to step to defeat them. The green shirts scored first and the red team just won out by the score of 2 to 1. The Columbus team almost scored in the final moments. Nevertheless the red team are now playing great hockey.

Tommy Robertson will ice the same squad that defeated the Columbus team last time. Hollie McHugh will be in the nets, Craig and Stewart Johnson on the defence, Gordie Johnson, Calder, and Ebbitt on the forward line.

MCGILL	Columbus
Goal	Goal
McHugh	Lennox
Defence	Defence
Craig	Taucher
S. Johnson	Munday
Centre	Centre
Ebbitt	Kelly
Wing	Wing
Calder	Borland
G. Johnson	McRobie
McGill Subs: Bell, Carley, Mac-Dougal, Broome, Oliver.	
Columbus subs: Davis, Cleary, Flanagan, Dubee.	
Referee: Leo Hefferman.	

INTERMEDIATE HOCKEY

There will be an intermediate game at Loyola on Saturday night at 8.15. Will the following be there if possible: McHugh, Carley, Nesbitt, Church, Craig, Bell, Taylor, Hutchison, Newlon, Johnson.

FINDS BASKET WELL

STIRLING McLEAN, who in just a half a game of play popped in three baskets and two free throws to rank as second scorer on the McGill intercollegiate basketball team in their game last night.

Columbus Is Team To Beat For Title

Workout Yesterday Prepares McGill For Play-Off

IRISH DEFENCE GOOD

WITH none other than the hard-checking Columbus aggregation facing them this Monday night in the first game of the play-offs, McGill's senior puckmen ran through a hard hour's work at the Forum yesterday afternoon for their coming battle against the Irish. Throughout the practice every McGill man worked hard, skating fast, checking, and picking up enough pointers to give them a polished performance with the Columbus boys.

This was the last workout before the series starts, and Coach Bell made sure that his charges would be in good condition. The redmen will rest up this week-end, and take to the ice on Monday night with plenty of fighting spirit, conceding their opponents' no edge.

Difficult Two Weeks

The McGill squad knows that their schedule for the next two weeks is a mighty tough one, but with the student body back of them as one man, they intend to give a good account of themselves. The Irish hockey men are by no means easy meat, and the red and white standard bearers know this.

With such men as McMahon, Carter, and Weir on the Columbus defence, Coach Bell fully understands that his McGill team will be forced to exert themselves in order to get by the 'dynamite trio'.

Complete Lineup

Coach Bell announces everyman in shape for Monday's game. Powers will once more be in the nets, flanked by McTeer and McGillivray on the defence. The red double-shift forward line, Farquharson, Ward, Robertson, and McGill, Doherty, Crutchfield will function together with Young Ken Farmer, whose performance to date has been nothing short of sensational. Hollie McHugh, junior shut-out king, will act as understudy to Powers.

Monday's game should be productive.

(Continued on Page Four)

Sports Notices

SWIMMING

An interfaculty swimming meet is being held on Friday afternoon at 5 o'clock in the Knights of Columbus pool. Members of past and present swimming or water polo teams are ineligible. Accordingly it is expected that a large crowd will flock to the entry sheets that have been posted at the K. of C. pool and in the Arts Building. Candidates are requested to sign early.

WEEK-END SKI-ING TRIP

Ti He Aux Cerfs, Skiing, Skating, Tobogganing. Organized for all women students of the University. Total Cost—\$6.00. Leaving Bonaventure Station, Saturday, February 14th, 1.25 P.M. Returning Sunday Evening.

Students desiring to join the group, leave name at the Physical Education Office for Women, R. V. C. before Wednesday, Feb. 11th.

CLASS BASKETBALL

The following please be on hand at the Bonaventure Station to take the train to Ste. Anne's at 1.30 p.m. and bring basketball equipment: Beatty, ...

City Leaguers Turned Back by N.A.L.A.C. 30-25 In Close game

EXCITING TUSSLE

MCGILL City League team dropped a fast and close basketball game to the league-leading N.A.L.A.C. quintet by the score of 30-25 last night. The Assurance men have now beaten every team in the league. The red men were their last victims, but did not give in until the last minute. The game was closely packed with thrills from whistle to whistle, and was by far the best game in the league this year, play being closer than the score indicates.

Two giant centres faced off, Cliff Melville and Harry Church, each watching the other as two hawks. N.A.L.A.C. started the scoring and had five points before the red team were able to score, however Talpis made it 5 to 2 when he took Hammond's shot under the basket and flipped it in. Play seasawed up and down and after five minutes of play the Assurance were leading 10 to 5.

In the next few moments of play, the red men outplayed their opponents and brought the score 12 to 9. Both teams gave beautiful exhibitions of ball-handling but were not able to get near the baskets to score. N.A.L.A.C. scored two baskets in quick succession and Feigenbaum hooped a long shot for the red team to make the half-time score 16 to 11.

In the first half the evident weakness of the McGill team was their poor shooting, the red men scored only one out of ten free throws, and anxiousness under the basket made them miss many easy shots.

Lifers Take Time Out

Harrigan replaced Talpis and scored a tricky basket as the second period opened. After the Assurance men retaliated Harrigan tallied again for the Collegians as the score read 18 to 15 only to be increased a moment later to 23 to 17. Talpis re-

turned to the game and scored a basket as the third period opened.

Semi-finals in the college badminton tournament will be reached over the week-end, as a result of the satisfactory progress that has been made in the eliminations so far. The second and third rounds were practically completed yesterday, when the Union Ballroom was again the scene of most of the matches.

Results were as follows:

Singles

Pyke def. Walsh.
Draper def. Rountree.
Galt def. Kyle.
Hankin def. Draper.

Doubles

Berger-Cohen def. Makiyama-Goodman.
Ebbitt-Hankin def. Berger-Cohen.

The draw for today has been given out by the executive, who emphasize that in order to adhere to the schedule the matches listed must be played in the course of the day, and the results filed with Mr. Yates in the Union Tuck Shop.

Singles

Pyke vs. McDougall.
Arkell vs. Makiyama.
Hutchison vs. Wright.
Galt vs. winner Arkell-Makiyama.
Shallcross vs. winner Hutchison-Wright.

Hankin vs. winner above.
Cohen vs. Denis.

Doubles

Challies-Denis vs. Ebbitt-Hankin.
Cohen-Victor vs. Shallcross-Call.

Davidson, Victor, Johnson, Allison and Hollingsworth.

R. V. C. HOCKEY PICTURE

This will be taken at Notman's on Monday at 1:15 o'clock. Will the following please be on hand: Clouston, Dubrule, Goulding, R. McNutt, Stanfield, R. Tait, H. Thompson, E. Walbridge, Halpenny, Coach Farquharson.

R. V. C. HOCKEY PRACTICES

Extra practices in the Hollow are called for: Monday afternoon; Tuesday 2:30 to 3:15 with M. S. P. E.; Wednesday afternoon.

Will all those interested please turn out, as opposition is needed before the game with Queen's on Thursday.

ARTS FACULTY BASKETBALL

The practice hour for the Arts Faculty has been fixed for 5:15 P.M. on Monday, February 9th. Will all those interested attend the first practice on Monday next at the allotted hour sharp on time in order to give the manager a chance to choose the representative team. The following are especially asked to be on hand: Willis, Cohen, Lusher, Aspler, Chard, Weinfield, Katz, and Erskin. Anyone else interested will be very welcome.

FENCING CAPTAIN

REG HARVEY-JELLIE, who leads the travelling McGill Fencemen at Norwich today.

Arts Seniors And Sophs Win Class Hockey Matches

Medicine 2 And Commerce 3 Both Lose by 2-to-1 Scores Yesterday

SOPH GAME ROUGH

IN their scheduled games this afternoon Arts 2 defeated Med 2 by a score of 2 goals to one and Commerce 3 lost to Arts 4 by the same count. Both games were ragged but fairly fast the Commerce-Arts game was handicapped by the lack of an appointed referee, but both teams took turns at supplying a player to act as one. Fortunately there was little rough play.

The same cannot be said of the Med-Arts game. The Sawbones evidently wanted to help their future colleagues through the hard times, though one of their own men was the only one to be seriously hurt. This happened late in the third period when McDonald was hit on the lip by the puck. He won't enjoy visiting for quite a while.

In the Arts-Med game Meds opened the scoring early in the first period when a good pass from McDonald to McCrimmon tricked the Arts defence. Henderson, Arts goaler, had no chance to stop the hard shot to the corner from McCrimmon's stick.

For the rest of the game Arts carried the attack and they were successful in scoring 2 goals in the second period. The first Arts goal was scored by Donald Young. He followed in for a rebound from Black's stick. The second Arts goal was due more

(Continued on Page Four)

Able Fencers Go To Norwich Today

Harvey-Jellie Plans to Start Redmen Best Way

CADETS FORMIDABLE

TODAY the McGill Fencing Club is invading the crack military academy of Norwich at Northfield, Vt. Although one of the ablest teams in the history of the club is encountering the veteran Norwich fencemen, a victory is by no means assured, for the Americans are lead by such outstanding swordsmen as Pendo and Batchelder.

The former will be especially recalled for the lightning attacks and expert feints with which he successfully ran the gamut of McGill's best in the home event last year. The Montrealers have not forgotten the defeat they suffered at the hands of the smart cadets, and are determined to exert their utmost effort for the glory of Old McGill.

Captain Plans Strategy

Captain Reginald Harvey-Jellie is resolved to dispose his effective teammates in an order that will bring out the cardinal features of each man's style. For he aims to secure an early lead in the competition to and maintain it.

While the issue is very doubtful, the visitors may be relied upon to perform with credit to their alma mater. And if they do not attain a win, they may at least be counted upon to inspire their opponents with a wholesome respect for the mettle of their steel.

Sketch Leads Swimmers

The annual junior interfaculty swimming meet was held yesterday at the Knights of Columbus Tank. Considering the fine opportunity this meet gives newcomers, the number of entries was very disappointing. The attendance was so small that only two events were run off.

Sketch of MacDonald showed the most promise. His time for both the events shows that he is a strong contender for a place on the intercollegiate team.

50 yards Free Style—1st, R. Sketch; 2nd, D. Faulkner. Time—20 secs.
100 yards Free Style—1st, R. Sketch; 2nd, L. Shapiro. Time—1:10 min.

Science Sophs Beat Own Frosh In Cage Final

Title Leaves Arts Faculty After Long Sojourn There

CHAMPS WIN 19 TO 13

THE fast travelling Science '33 basketball quintet ended a hectic two years quest for the much coveted interclass cage title yesterday afternoon when it decisively proved its superiority over the freshman Science '34 aggregation at the Montreal High gym in a fairly listless game by the score 19-13.

The Sophomores' victory over their neophyte colleagues served a double purpose. It returned the old interclass championship to Science after its long sojourn in Arts territory, and avenged Science 2's 8-7 defeat at the hands of Science 1 in the semi-finals.

All-Science Final

The tussle yesterday afternoon was a freshman-sophomore Science final. The two plumbier aggregations had easily flung off all opposition in their respective sections and garnered their well-earned sectional titles. They advanced a step further towards their ultimate goal when they eliminated Med 1 and Arts 2 in the semi-finals and yesterday afternoon the quintets met to decide the championship.

The laurels have rested a trifle too long in the hands of the famed Arts '32 quintet who up to lately held a strong monopoly over class basketball honors. However, early in the season the Science '34 aggregation put a crimp in their high aspirations by defeating the Arts men in one of the most surprising upsets in interclass basketball and taking the sectional title.

Sophs Hit Old Pace

Yesterday afternoon the Science '33 basketballers hit their old pace again and their freshmen brethren, try as they might, were unable to stop the fast onslaughts of the second year men. Throughout the proceedings the second year men held an edge over their competent opponents and were not to be stopped in their strong bid for the title.

The game started with a dazzling rush by Science 1 which netted them four points. However, in a few minutes their speed had reached its zenith and their spurt died down to a slow jog. At this point of the game the sophomores started their slow but

BOTH R.V.C. BASKETBALL TEAMS WIN CITY TITLES

Double Victory Over Y.W.C.A. Last Night Rounds Out Successful Season — Seniors Win 56 to 33, And Juniors 46 to 21—Smart Scores 30 Points

MCGILL co-eds clinched the championship of the Montreal Women's Basketball League last night when both the Senior and Junior squads defeated the Y. M. C. A.: The Senior score was 56-33, and the Juniors ended on the long end of a 46-21 count. Both sextets came through the season without losing a game.

Betty Craick game. The half-time whistle went with McGill leading 21-16.

The Senior "Y" cagers scored six points in the first few minutes of the game. The red and white team gradually became accustomed to the small floor and took the lead, which they were able to retain for the rest of the game.

Smart High Scorer

The "Y" got away to a fast start in the opening minutes of the last half, but the reds, led by Captain Craick made a fast recovery, and their opponents could not intercept their long passes and accurate shots. With the score 40-20 the "Y" again picked up and brought their count up several points. The game ended with the R. V. C. co-eds leading by 23 points.

Louie Smart scored 30 points for the winners and 20 others were gained by the neat shots of the captain. Janet Dobson, playing centre in the absence of Merle Peden, used a back flip-off to Carter on the defence. The combination ended with a long pass

sure climb to victory. Baskets by Shute O'Dowd and Rivenovich and three free throws raised their points to nine in the first session, the half-time score being 9-7.

Second Not So Close

In the second frame the sophomores easily increased their lead at the expense of the freshmen. The second year men found their opponents' defence a rather easy mark and led by Captain Al Chennel, Science 2 kept Science 1 at bay and at the same time added to their own score.

The freshmen fought hard throughout the proceedings but could not stop the determined and effective rushes of Science 2 nor could they disengage themselves from their opponents' strong checking tactics. In

(Continued on Page Four)

to either Smart or Craick. This combination proved most effective on the small floor, Julie McRobie and M. Davidson made a good showing for the losing squad.

SPALDING ATHLETIC EQUIPMENT

Athletics have developed from a mild form of recreation to what we now find very fast and strenuous in some cases. Spalding Athletic Equipment has advanced as well as the sport itself. Spalding Athletic Equipment has those features which enable it to stand the pace of the hard and fast games of today. Spalding builds into its equipment the best material obtainable which makes the name SPALDING a sign of superiority in Athletic Goods.

McGill Chessmen Lose to Sun Life

Students Place Second in League Standing

McGill's hopes for the City Championship were rudely shattered last night when their chess team were forced to accept defeat from the strong Sun Life aggregation. The match was very closely contested and at the time of going to press Horowitz was still fighting it out with Moran of Sun Life. The score was then 3½ to 1½ for Sun Life, and as a match is made up of only 6 games, the winning team was already decided.

Their win gives Sun Life the Chess Championship with 35½ games won, closely followed by McGill who chalked up 33½. As most of the McGill team will be playing next year the prospects for a championship are very promising.

Goldstein played an even game with his opponent but after a sacrifice of a rook he brought about a peculiar mate. Billette fell victim to a strong attack after being a pawn up for the greater part of the game. A bad break cost Rowat a certain victory.

The following are the results:

1/2 McGill	Sun Life	3 1/2
1 Goldstein	Hutchinson	0
1/2 Black	Carson	1/2
0 Blumer	Pierce	1
0 Rowat	Ward	1
0 Billette	Caceres	1

Students' Council Give \$1100 Budget To Players' Club

(Continued from Page One)

least two women members. Decision in the matter was reserved. The Council approved in principle of all the recommendations brought in by the committee which investigated the possibility of a better understanding with the University of Montreal. Permission was granted for the immediate carrying into effect of the more pressing items on the list, the chief of which is to be a combination reception-smoker-entertainment in the Union about a month from now.

Band Instructor Engaged

In asking for the appointment of a band instructor, R. A. Sancton pointed out that the band, while doing its duty as a volunteer, amateur organization, would be much more useful if it performed to the polish which a few hours of professional instruction would give to it. There was no serious opposition and the motion was passed.

Dates for nominations and elections follow very closely those set in past years. At noon on the 25th nominations close with elections following on the 11th of March. The \$20 granted for the establishment of a Canadian Intercollegiate Press Union is to be used at the discretion of the Daily Managing Board to link up with judicious wire despatches the eleven college papers in Canada.

In sponsoring one of Dr. Kotschnig's lectures the Council is setting a precedent. Never before has one of McGill's visitors spoken directly under the auspices of the students. The Doctor will probably be asked to speak on student affairs in Europe with which he has long been intimately acquainted.

Guarantee Annual For April First

(Continued from Page One)

brillies and otherwise in informal poses, have been secured and they will each have a choice little limerick written underneath by McGill's own Limerickist, Al Watt. It is the ambition of the Annual Board to have everyone's picture included in the book this year. At the present time the Executives' desk is strewn with snap shots and they are inviting more so beware! There will be photographs too of the members of the Rowing and Boxing Clubs and the C.O.T.C. The M. S. P. E. and the R.V.C. hockey team will have a prominent position among this section of College Life.

The Red and White Revue Members the Choral Society and the Players' Club will have pictures of their actual practices, and what is an entirely new feature the songs and hits of the Revue will be printed.

Lord Willington, two days before his departure for India, autographed his photograph especially for the Annual and dedicated a long handwritten message to the students which will be reproduced facsimile.

Of special interest to the sport enthusiasts will be the selection of an all-star intercollegiate hockey team by Dunc Munroe who was at one time one of the greatest of amateur defencemen, and who is now with the Montreal Maroons in the capacity of a coach. A photograph of the first intercollegiate football game ever played in America between Harvard and McGill will appear and with it a write-up by Henry Joseph, one of the actual participants in the game. This is the first time an official list of the players has been compiled.

It is to be remembered that cash prizes of \$15.00 and \$10.00 are still being offered for scenes of College Life. February 20th is the final date for contributions and the final date for the Annual to be submitted.

Red & White Revue Notes

Chorus

Groups "A" and "B" will rehearse at 2 P.M. today in Strathcona Hall. Another photograph will be taken.

Group "B" will rehearse on Tuesday and group "A" on Thursday next week. Both groups will rehearse next Saturday.

Juniors Win

The Junior game was much slower and the passing was sloppy throughout most of the tussle. The one redeeming feature was the consistent sure-shooting of Florence Jones, McGill side-centre. The Y. W. C. A. got the tip off at the first whistle and scored but never again retained the lead. The number of fouls called on all the players during the first part of the game added to the monotony of the conflict.

The score at half-time was 22-11 for McGill, and at no time did their opponents come up to their standard.

Background For Modern Science Found in China

(Continued from Page One)

him to return to his home in the south.

Although stone rubbings were known in the 5th Century, B.C., declared Prof. Kiang, it took the Chinese 1300 years to invent actual printing. The origin of paper dates back to the first century, B.C., before which time, silk was used.

Referring to medicine, Dr. Kiang stated that the Chinese even now cling to many old native practices, and that Westerners in China have often been cured by Chinese herbs. The use of Ma Huang, or "confederia fulgens" has astonished the medical world. Not only herbs, but other materials have been studied in a scientific manner, and are now extensively used in medical cases. The "Pen Tsao," written at a very early date and attributed to Shen Nung, the "Divine Farmer," is a most important work, equally valuable to agriculture and medicine.

Medical Operations Performed

The Tun Jen, a bronze man casted in the Northern Sung dynasty, 1027 A.D., shows the interior and exterior of the human body. It is particularly important in the depiction of veins and other vital parts. Miraculous operations were performed by Hua To on the arms and legs alike, and in the exchanging of bones.

Many mechanical devices were constructed by Lu Pan, chiefly to enable forces to besiege cities and cross city walls. Against these instruments, Mo Ti constructed others for counter-attacks. Drums were used for recording mileage, and wind-cocks to denote wind direction.

The invention of the seismograph is attributed to Chang Heng, although he is better known in China as a writer of poetry and literature. The construction of this instrument was done in an artistic manner, and it operated by a ball rolling out of a dragon's mouth whenever there was the slightest disturbance of the earth.

Development Still Necessary

Recently there has been much study of machinery and scientific methods and many works have been translated into Chinese. A great field is open for development, and all societies which have this end in view are very active, declared Dr. Kiang.

Answering some questions that were advanced at the close of the address Prof. Kiang stated that the wheel was known in the ancient empire at least 2000 B.C. Plate glass was in use in the first century A.D. In astronomy, there are two great observatories, the one at Peking dating from the 14th Century, and that at Nanking founded in the 18th Century.

that everyone try to get them in earlier in order to simplify their selection. As a reminder there are still some clubs and classes to submit pictures which must be submitted soon.

Intercollegiate Cagers' Defeat Beavers 38-29

(Continued from Page Three)

ing and ball-handling was praiseworthy. The scoring in the last session was even, each team registering 19 points. The final whistle found the redmen on the long end of the score 38-29.

For the collegians Young, McLean and Faulkner were outstanding while Goodman and Cohen were best for Beavers.

Experts Judge Revue Posters Monday in Union

(Continued from Page One)

promise to be as well-received as ever, and orchestration of these will be made shortly.

Work Progressing

Work on the colossal production is still going ahead at full speed. The two chorus groups have been picked and are now busily mastering the intricate steps under Alan Murray's direction. The costume committee have taken hold of the Revue room in the Union, and work in this line is also reported to be progressing favorably. With the poster competition completed, the business end of the show will now see that the announcement of McGill's annual student extravaganza will be auspiciously made to the general public.

Stormy Speeches Shadow Campaign

(Continued from Page One)

A rumor that Ramsbottom Horseley might become Minister of Insanity was neither confirmed nor denied by the Hon. Max Ford who stated that due to the maladministration of the late government a Minister of Insanity would be perfectly in order. This would be a new addition to the ministerial body as no minister of Insanity has been appointed since B.C. 1235. "The Cabinet is one of the strongest ever appointed by the Conservative Party and has within its ranks many of the foremost orators and exponents of International Law." The slogan of the Minister of Fisheries is "I will give the people bigger and better sardines if I can. We must school the people to eat fish." The Prime Minister notified his intention of not disturbing any of the rank cigars issued by the late government owing to the fact that the Conservative Party has recently placed a tax on tobacco. He feels that he is the choice of the people, having received a few votes, and announces that he will give his opponents "some of their own medicine."

Farmer States View

Mountain Peak, Sask. Feb. 7.—Fred Stone, Farmer Member, in commenting upon a motion of the Government for providing encyclopedias for the farmers of the prairies said, "What do farmers want with them encyclopedias when they can use the old horse and buggy?" He condemned the motion as a menace to the safety of the already congested highways of the Province.

Tierra-del Fuego, Feb. 7.—A regular trade with this country will result if negotiations with the Dominion Government bring the desired results, according to a statement from the Hon. Max Ford, Minister of Fisheries. "They need all we can sell them," said the minister in the course of an address at Ottawa, "and can give us in exchange their only product, sardines. Now that women have definitely left the home market for canned sardines is practically unlimited."

Red Menace

Riviere des Mouches, Que. Feb. 7.—The Leader of the Opposition stated here that the Red menace which again raised its head during meetings yesterday is due to the misuse of power by the present government. "This will be one of the major reasons for the vote of non-confidence which will be the big issue at the first meeting of Parliament Monday night," said the Hon. Member. During many political meetings recently speakers have been continually interrupted by cries of "I'm hungry" from starving men in the audience and the Labor member, David Lewis, is hopeful of gaining support for Labor policies through the vote of non-confidence.

Arts Seniors And Sophs Win Class Hockey Matches

Columbus Is Team To Beat For Title

(Continued from Page Three)

live of good hockey. Both teams are capable of playing well and those who are always attempting to pick winners find themselves lost, since betting in many quarters is even. The redmen conceded an edge in speed and stickhandling, are not quite up to the mark in as Columbus when playing a closely-knit defensive game, the Irish being more adapted to handing out body checks that take toll upon opposing players.

In any case, those who journey to the Forum should witness a real battle, since every goal will count in the final reckoning.

A second game, merely an exhibition, will be played after the McGill-Columbus affair. This latter contest will see M.A.A.A. pitted against Victorians.
